Objectives

This class helps students strengthen their skills in listening, speaking, reading, and writing. The topics in the textbook cover the most commonly used conversations. The class is designed for 8 weeks and mainly focuses on improving students' listening and speaking abilities. Students are expected to learn at least 21 new Chinese words every class. Students are expected to master approximately 380 new characters, to recognize and write 462 new words, as well as 132 new grammar patterns. Students should be able to function in Chinese in their daily life with good confidence and to hold conversations with local Chinese people on most common topics, such as talking about Chinese culture, food, customs and local arts etc. In addition, with using some high level vocabularies, students can also talk about some social issues, such as birth control in China and women's social status in Chinese society, etc.

Students are required to take three Chinese courses; Grammar class, Drill 1 & 2. Before each class, students should prepare by reviewing the new words for that lesson. During class, the
